Lester Snow, Executive Director
CalFed Bay/Delta Program
1416 Ninth Street, Suite 1155
Sacramento, CA. 95814

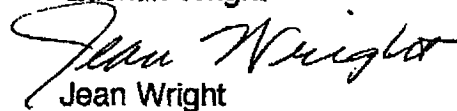

Dear Mr. Snow,

We hope the CAFed Bay/Delta program will be revised by eliminating the construction of new dams or expanding existing dams. Taxpayers do not want to subsidize new or expanded dams, reservoirs or canals. Instead, we need to plan for water conservation and efficiency and prevent water pollution at the source. We also need to care for, protect and use the floodplains for flood control and recreation and not development.

Sincerely,

Quentin Wright
